Nimrod and the Tower of Babel

LEVEL 1  
LESSON 5

# Nimrod and the Tower of Babel

In the previous lesson, we learned about the Flood that destroyed the Earth. Noah and his family were the only people protected. Noah had three sons: Shem, Ham and Japheth. Including their wives, there were only eight people remaining after the Flood.

Ham had a son named Cush. When Cush grew up, he had a son named Nimrod. Nimrod was a very strong man and a mighty hunter. The people looked up to Nimrod because of his strength. They saw him as a leader and a hero. Nimrod defended the people from wild beasts.

Nimrod did not obey God. But the people admired him, and they followed his wrong example. He taught the people to worship the sun and snakes, rather than God.

Noah was still alive, and he obeyed God. Noah tried to warn the people, but just as before the Flood, they would not listen.

Nimrod planned and organized the building of a very tall tower. He wanted to make a tower that would reach

the heavens. It was a temple for the people to worship the sun. Nimrod was rebelling against God.

People liked this project. They worked very hard, and it soon became the most important thing in their lives. It was easy for the people to work together because they all spoke the same language.

God did not want this to happen. He wanted people to obey Him. The people forgot the Flood, and they forgot God. If the building of this tower continued, God knew that the people would become as evil as they were before the Flood.

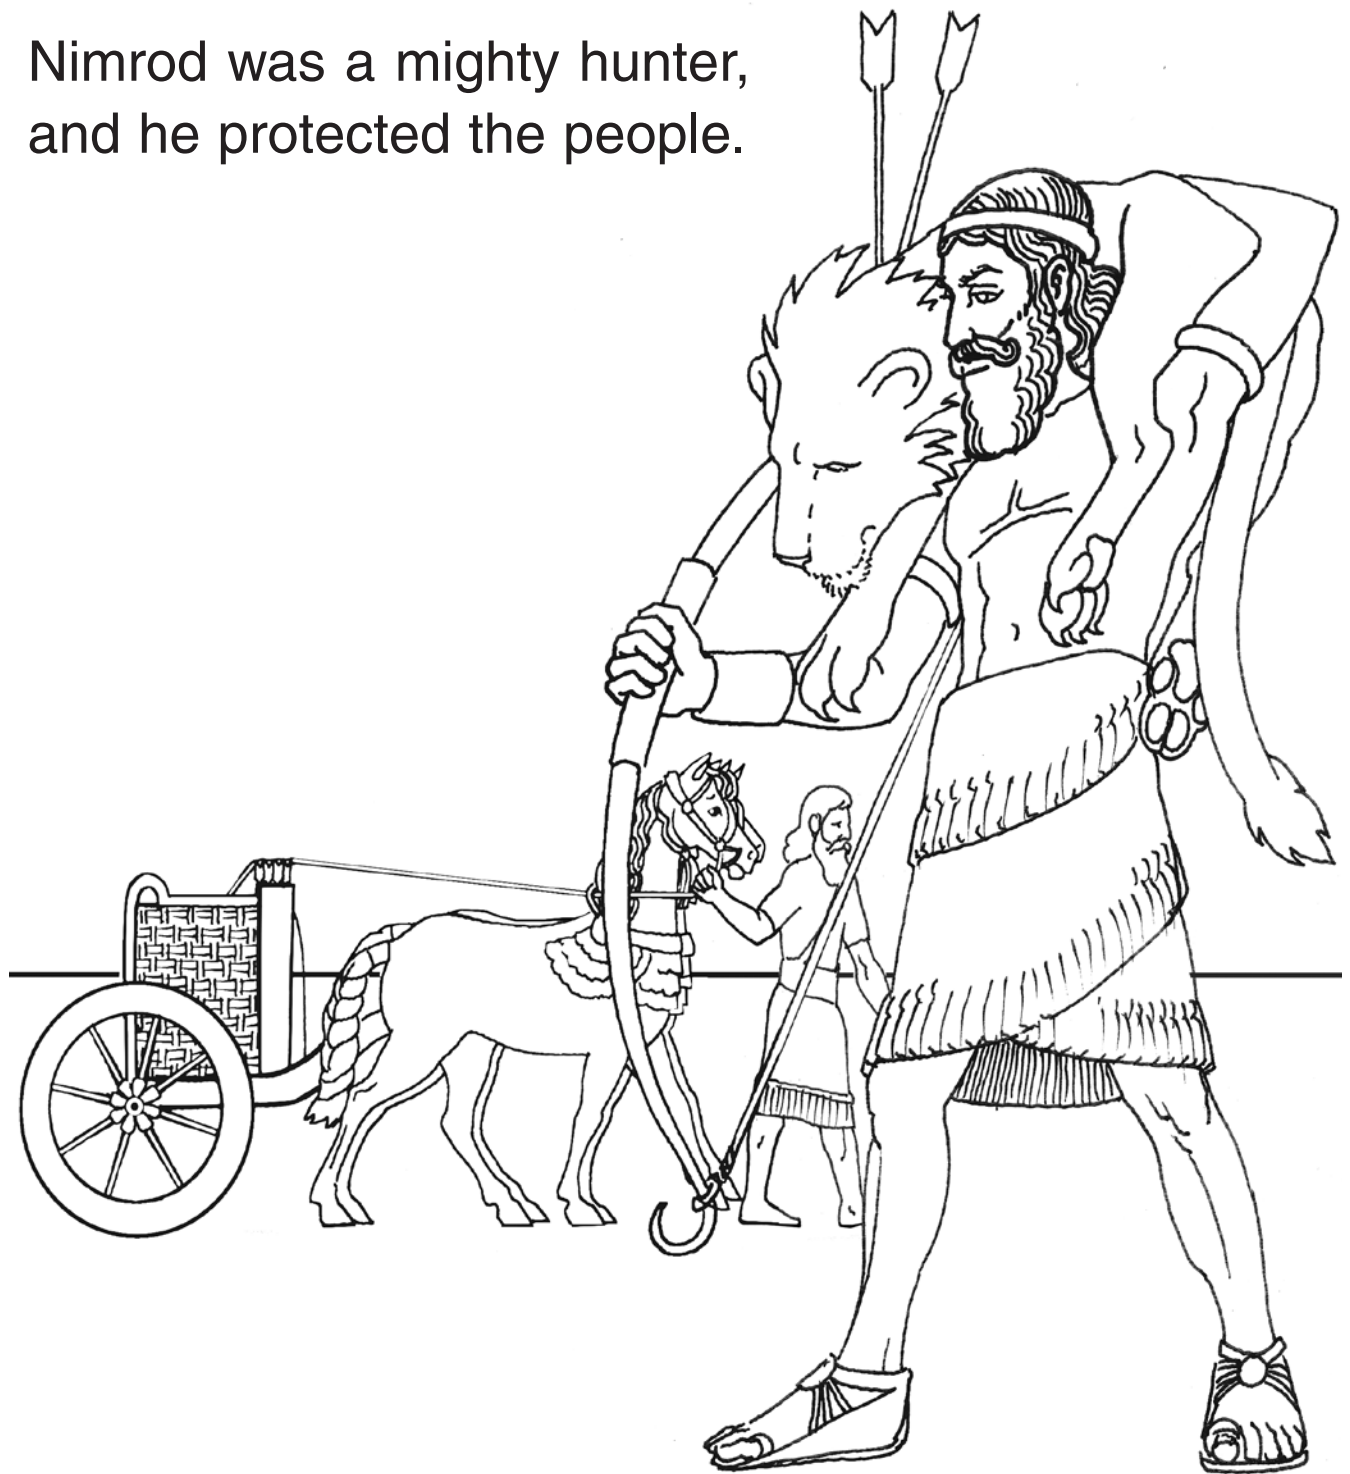

God caused the people to speak different languages. This caused them to break into separate groups. They could no longer work together to build this tower. There was confusion and the building stopped.

Those who spoke the same language moved in groups to different parts of the world to start over.

This very tall tower built to worship other gods was called the Tower of Babel. The word Babel means confusion.

In the next lesson, we will learn about a man who obeyed God and received many blessings because he did so. This man is Abraham.

Nimrod was a mighty hunter,  
and he protected the people.

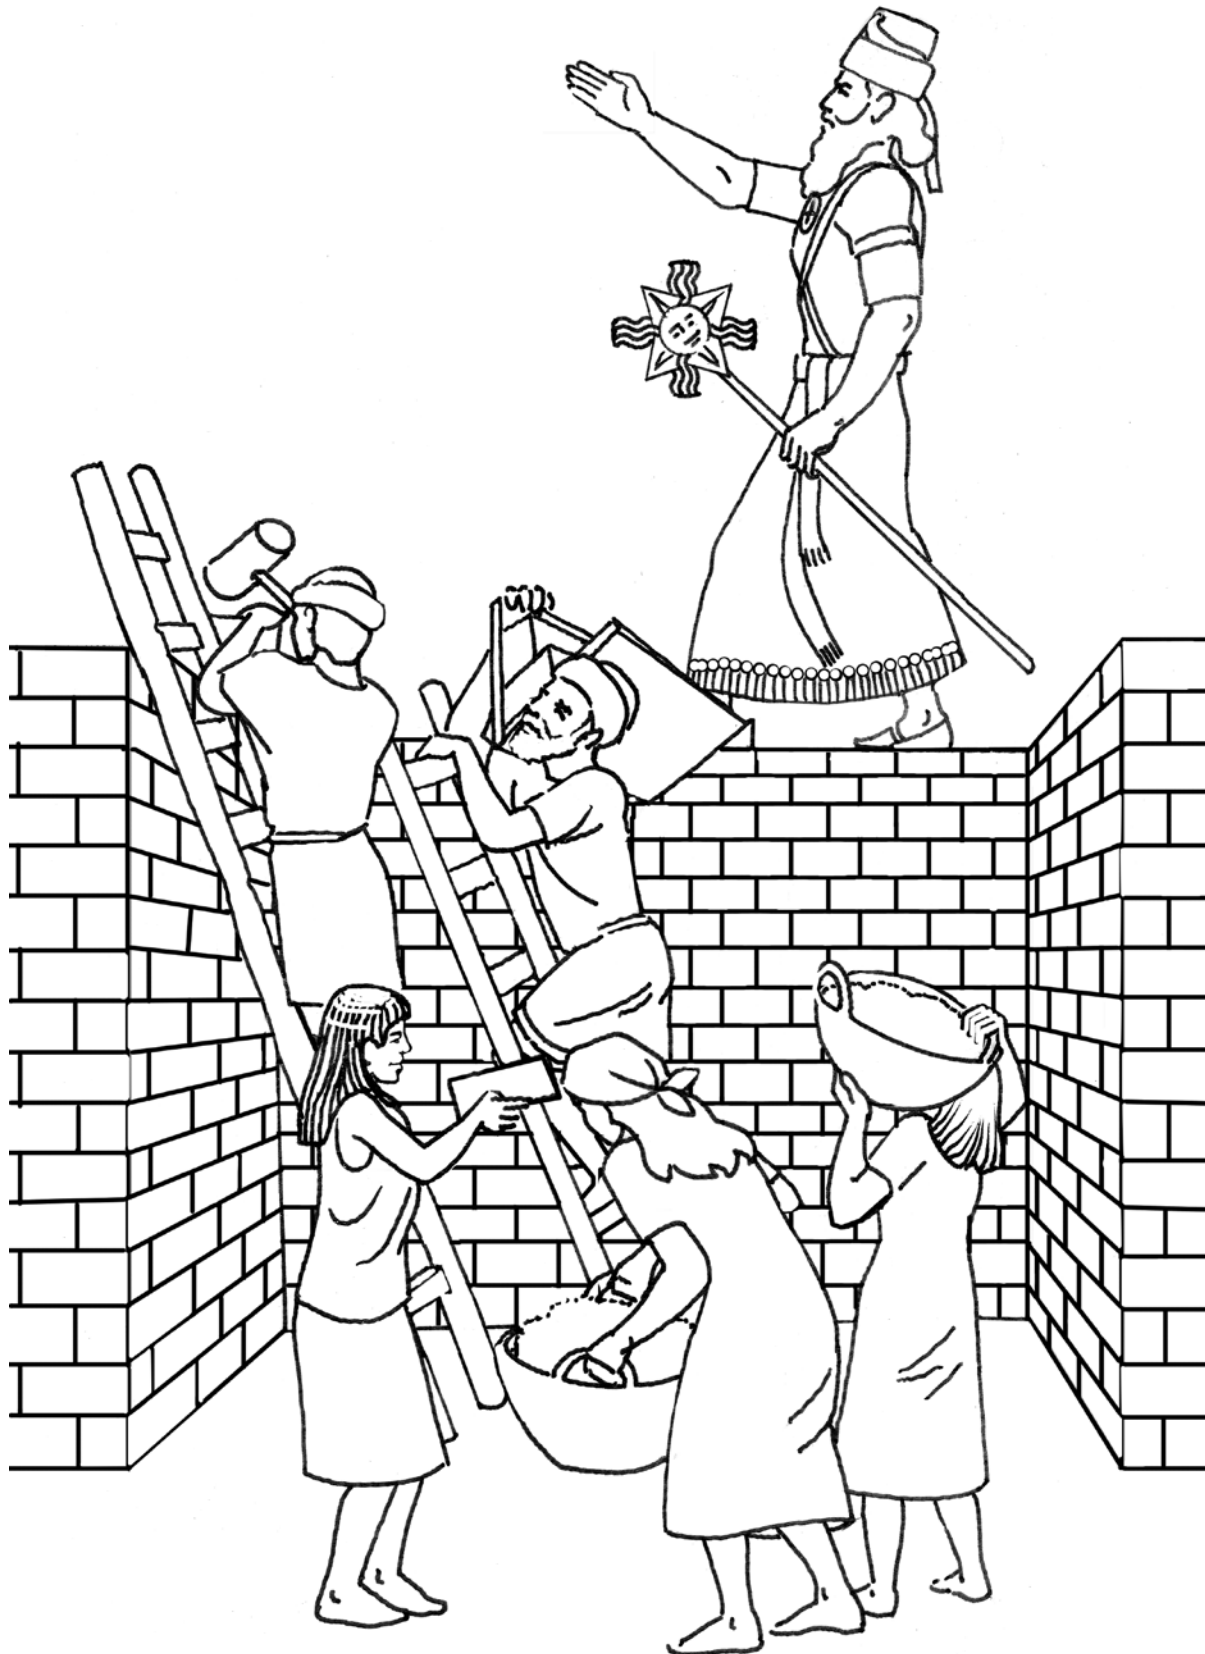

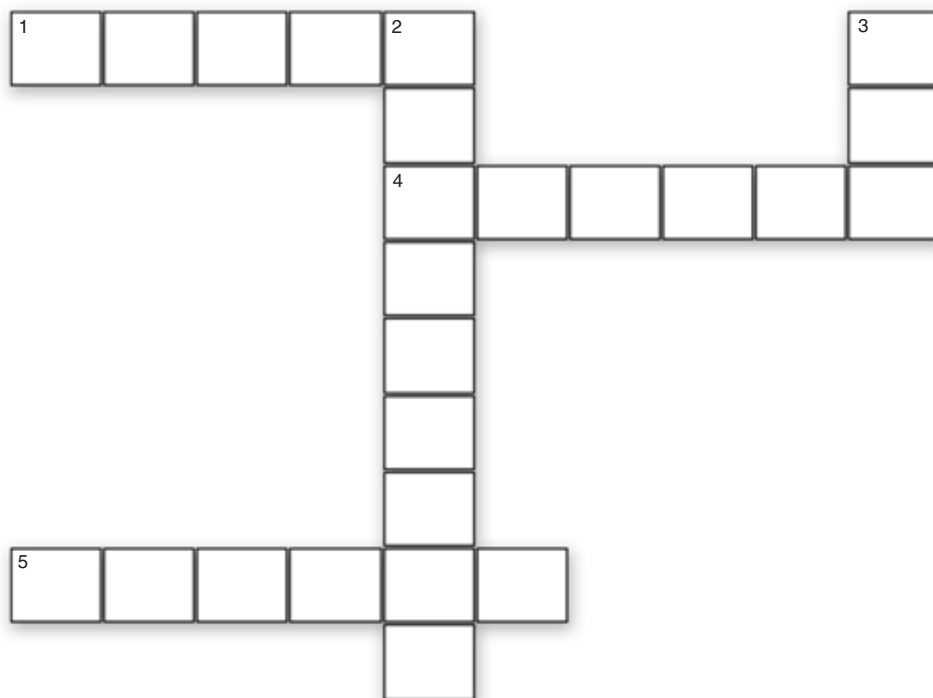

Nimrod did not obey God. He taught the people to worship other gods such as the sun and snakes.

Nimrod planned the building of a very tall tower.
